BRUNELLO WINERY

On the hills between **Val d'Orcia** and **Maremma**, in a very panoramic and private location, **155-ha wine estate with 40.5 hectares of vineyards** for sale. The property features **two cutting-edge wine cellars** (over 6,000 sqm) that can produce up to **275,000 bottles of wine** per year (including **Brunello di Montalcino DOCG**, Maremma DOC, Rosso di Montalcino and several excellent Tuscan IGT wines). The property has excellent development potential for a tourist accommodation.

The selling price includes wine stock currently in the cellar.

The property is reached via a short stretch of unpaved road and the medieval town of **Montalcino** is just 4 km away, all services available within 10' by car. The location is also very convenient to reach most of the historic cities of **Tuscany** (Siena, Volterra, San Gimignano, Florence...).

DESCRIPTION OF THE BUILDINGS

The farm has buildings in the municipalities of **Montalcino** and **Campagnatico**, in Maremma. The building in Montalcino, a large complex constructed around an existing farmhouse, includes the production premises and four independent housing units that could easily be used to start a hospitality business in an area with great potential. In Maremma, the winery has only one cellar for processing grapes.

In total, the two cellars have an area of about **6,000 square meters** and allow the processing of about 400 tons of grapes per year. Equipment includes steel vats (total capacity of 17,455 hl), wooden barrels (4,016 hl), bottling machines, labeling machines, pumps, presses, and vehicles.

EXTERIOR

The estate covers, in its entirety, a total surface of **155.2 hectares (383.5 acres)** on the hills of Montalcino and Maremma.

Backbone of the estate are the **vineyards** (14.4 ha in Montalcino + 26.1 ha in Maremma): these are registered as **Brunello di Montalcino DOCG** (8.8305 ha), **Rosso di Montalcino DOC** (2.7800 ha), **Sant'Antimo DOC**, **Maremma DOC** and **Montecucco DOC**. The estate's production reaches **275,000 bottles per year**, with a particular focus of Brunello di Montalcino DOCG (90,000 bottles) and Rosso di Montalcino (35,000 bottles). The remaining 150,000 bottles are made up Toscana IGT, Maremma DOC, Sant'Antimo DOC and Montecucco DOC. The quality of the wines is ensured by a **draining soil** (medium texture rich in clay and sand) that naturally limits the actual yields of the vines.

The **olive grove** (8.8 ha) is made up of Olivastra, Frantoio, Moraiolo, Leccino and Pendolino and allows for the production of an excellent extra-virgin oil. Olivastra trees are centuries-old, while the other three cultivars come from younger trees.

Notable expanses of **arable land** (47.5 ha) have been bought in the areas of Montalcino and Maremma and could be used to further expand the existing vineyards, leading to an increase in production. The remaining surface of the property is covered in **woodland** (58.2 ha).
