DESCRIPTION OF THE BUILDINGS

The **villa** (430 sqm – 4,627 sqft, 3 bedrooms and 4 bathrooms) is on three levels.

On the ground floor we find a large open-plan living room with fireplace, a kitchen equipped with professional appliances, a dining room, a bathroom, three rooms currently used as a gym and professional studio, all directly connected to the garden. The ground floor also has a large porch with barbecue and fireplace, ideal for outdoor dining.

An internal staircase leads to the first floor, where there is an entrance that gives direct access both to the living area, consisting of a kitchen, living room with bar corner and fireplace, and to the sleeping area, where there are three bedrooms and two bathrooms. On this floor all the rooms are connected with large terraces that surround the entire floor, one of which has a large space to accommodate a table and relaxation areas, adjacent to the kitchen and living room.

Climbing further via an open staircase, one reaches the attic where there is a huge open space with a fireplace, a study room enveloped by a noble wood bookcase and a terrace. On this level there is also a bathroom and an inspectable technical room.

The garage has an independent entrance and its ample dimensions allow at least three cars to be parked. In addition, the current owners have reserved a billiard room and a laundry room inside.

The **850-square meter garden** surrounding the building ensures absolute privacy and is the ideal place to spend quiet moments outdoors during the summer.

The villa was built in the **1980s**. It has three fireplaces, one on each floor, terracotta floors, double glazing, insulated walls and zoned heating systems. The rooms have large windows that make the house very bright and cozy.

The roof has recently been redone and insulated.

USE AND POTENTIAL USES

The property is also ideal for those who have their own professional activity and would like to obtain their own office on the ground floor.
